

Server Admin Rules:

1. Any admin with a server account must have a valid registration # thru the database on file. If any server admin account is to be known to having unregistered admins using the database, there is 1 warning to adhere, then the account will be suspended until all admins are registered as regular users.
2. All offense records must be submitted to the users record within **48 hours of the offense**.
3. You must keep your server discord link as non expiring
4. You must respond to all appeal department emails within (24 hours). Please read the appeal process policy for further details
5. You **MUST** report any user who gives a D.O.B on an application that is different then the one listed on their record. They are supposed to only provide factual information and any inaccuracies must be fixed ! To report a user, either fill out an Offense Record form or email accounts@rpreportingagency.com
6. Any discord/email/steamID account information changes must be submitted to accounts@rpreportingagency.com
7. All Offense Records must be **factual** ! You can not add fake or exaggerated offense records to anyone at anytime !!! This was built to help admins keep track of good and bad users. Let's not ruin a good solution with immaturity.
8. If you want to delete a report that you added or edit a report, you must email reports@rpreportingagency.com and provide the Offense ID and explain why. Once a record is added, the agency has no obligation to remove it.
